

Report sul monitoraggio dell'opinione dei dottorandi del DISAFA 2022

Il questionario, in forma cartacea, in via sperimentale e in forma anonima, è stato creato con il contributo dei Coordinatori dei Corsi di Dottorato del Polo AgroVet dell'Ateneo torinese e della Direttrice della Scuola di Dottorato durante la primavera-estate 2022 ed è stato somministrato al termine dell'anno di dottorato ai cicli 36, 37 e 37PON del Corso di Dottorato in Scienze Agrarie, Forestali e Alimentari. Si è poi proceduto alla trasposizione del questionario su Google Form, che è stata somministrata nel dicembre 2022 a chi non aveva risposto al questionario cartaceo e ai dottorandi dello stesso corso del ciclo 35.

(Nelle risposte con valori da 1 a 10 i risultati sono medie delle scelte dei valori: 1-4 = non concordo; 5-6 più o meno; 7-10 = concordo, diversamente sono riportati i numeri di quanti hanno scelto una determinata risposta)

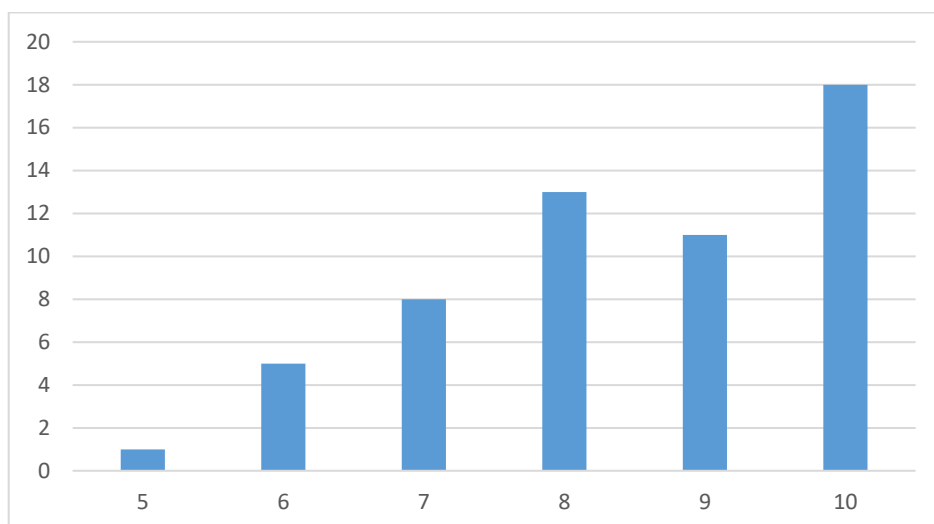

Hanno compilato il questionario cartaceo 32 dottorandi: 13 del 36°, 12 del 37° e 6 del 37PON + 1 senza indicazione), mentre il questionario online è stato compilato da altri 26 dottorandi: 8 del 35°, 8 del 36°, 9 del 37° e 1 del 37PON, per un totale di 58 dottorandi: 6 del 35°, 21 del 36°, 21 del 37° e 7 del 37PON + 1 che non ha dato indicazione del ciclo.

7 sono senza borsa, 1 svolge il dottorato in apprendistato e 3 sono dottorati industriali.

45 si sono laureati nell'Ateneo torinese, 8 in atenei esteri, 1 proviene dal Politecnico, 1 da Milano, 1 da Padova e 1 da Venezia.

12.1 - Comments and suggestions

1) Simplify the bureaucracy for going abroad, provide more clear information in the website about the step to do for the departure (video tutorial, guide with the steps); simplify the communication with different organisms. It would be nice to have one only referent for all the aspects of the PhD (sometimes the communication with the offices is slow. provide (if possible) one statistic course and not seminars with different professors; digitization and simplification of procedure (eg buoni d'ordine) include in the website the procedure for the use of "estensione borse" for going abroad (SAFA Dottorato).

2) These days (soggiorno a Pra Catinat) have been great, very nice and pleasant. Great opportunity to meet other PhD students and create linkings and get contacts plus it was quite relaxing as well. Also have time for practicing oral presentation is very good since it is a useful skill for several other occasions (conferences, seminars...).

3) Favorire dottorati industriali.

Analisi dei dati

In generale si nota un giudizio un po' più severo nel 36° ciclo rispetto al 37° o 37°PON, ma sempre positivo. Il 35° ciclo, al termine della propria carriera, ha manifestato giudizi generalmente più positivi dei cicli successivi.

Si nota una consapevolezza della necessità di prepararsi e richiedere una formazione più mirata al mondo non accademico.

Le richieste formative sono dirette a innovazione e imprenditorialità, modellistica e public engagement.

Soltanto tre dottorandi cambierebbero università, mentre uno cambierebbe corso di dottorato.
